THE BEST SHOW IN THE INDUSTRY IS BACK & BETTER THAN EVER

World of Modular is an open forum for anyone interested in modular construction. From general contractors, architects, and designers to suppliers of building products, services, and financing, World of Modular remains the single best place for everyone involved in the modular construction industry to learn, share, and network. And now with an unlimited global audience representing every facet of the industry, the time has never been better to register.

WHY ATTEND WORLD OF MODULAR?

After a year that has challenged many other industries, modular construction has continued to thrive. From healthcare facilities to multifamily projects, our industry is being called upon to deliver like never before. Now is the time to immerse your company in the industry, and World of Modular offers more opportunities for education and networking than any other event on the planet.

SIMPLY PUT: IT’S AN EVENT YOU AND YOUR COMPANY CAN’T AFFORD TO MISS.

MODULAR IS BOOMING

And it’s easy to understand why. According to a 2020 survey by Dodge Data & Analytics, seven specific aspects of construction project delivery have been positively impacted through the use of offsite and modular construction. At the top of the list were improvements to productivity, quality, and schedule certainty.¹

The charts below detail how architects/engineers, GCs/CMs, and trade contractors measure the top impacts of modular construction.¹

We've designed this year's digital exhibit hall to mimic a physical exhibit hall as closely as possible while taking advantage of the opportunities of online interactivity.

**How do digital booths work?**

Digital booths work in much the same way as those in a traditional expo hall. Attendees will be able to browse and interact with exhibitors in real-time.

Each booth will operate under the same general framework but remain customizable to meet the exhibitor’s needs—just like an in-person expo.

During the days of the event, you’ll be able to visit booths and network with exhibitors through the built-in live-chat feature. To facilitate further networking, booths will remain active for four weeks (or more!) after the event.

With live video chat; instant access to online documents, interviews, and resources; and the ability to schedule one-on-one meetings, the exhibit hall at the 2021 World of Modular has unlimited potential.

**QUESTIONS?**

OUR MISSION
As the Voice of Commercial Modular Construction®, MBI promotes the advantages of modular construction while advocating for the removal of barriers that limit growth opportunities. Through its long-standing relationships with member companies, policy makers, developers, architects and contractors, MBI has become the trusted source of information for the commercial modular construction industry.

EDUCATIONAL FOUNDATIONS
The MBI Educational Foundation and the MBI Canadian Foundation were established specifically to expand opportunities, increase awareness, and foster growth in the commercial modular construction industry by supporting research and development, providing scholarships for students, and developing partnerships and alliances with complementary organizations.

BEYOND WORLD OF MODULAR
World of Modular is an event like no other, but there’s so much more to the Modular Building Institute. Maybe it’s a key contact we can introduce to you or a regulatory challenge we can help you overcome. Whatever your need, MBI is dedicated to helping make your business more successful all year round. We are confident that by becoming a member—or taking full advantage of your existing membership—you will not be disappointed with your return on investment.

ADVOCATING FOR THE INDUSTRY
As the world’s largest trade association for commercial modular construction, MBI has taken the lead to introduce, change, and defeat legislation and regulations that would have an adverse impact on our industry. We have successfully protected our members’ interests in numerous states and provinces on issues ranging from taxation, plan approval, code compliance, relocation and recertification. In short, MBI is the voice of the commercial modular construction industry.
